PROJECT DESCRIPTION

44,000 SF two story addition utilizing the amalgam of complex structural elements to include mat foundations, steel structure with concrete topped hollow core plank for first story/second floor, pre-engineered steel second story/roof and masonry bearing with wood trusses for connection points to existing structure. The project will quadruple the library capacity. The existing spaces are to remain occupied during construction. The project includes a clock tower, exterior enclosed courtyard with canvas canopies, and extensive site work, parking and landscaping.

A new cover soon to be unfolded
